

Serving
the Pipeline Network
On the Road to Zero Incidents

ROSEN
empowered by technology

ROSEN at the IPC/E 2018

TUESDAY, 25 September 2018

11:00 - 11:30	Michelle Unger Competency Standards for the Pipeline Industry	Telus MacLeod E1
13:30 - 14:00	Thomas Beuker A Basis for a Comprehensive System-Wide Crack Management Program	MacLeod Hall D
14:30 - 15:30	Client Paper Johannes Becker (KMC), Jeff Fleming (ROSEN) Reactivating a Legacy Pipeline – Simulating ILI Run Behaviour, Operation Optimization, and Project Challenges	MacLeod Hall B
15:30 - 16:00	Stefan Vages Overcoming Difficult to Inspect Multi-diameter, Low Pressure Gas Transmission Pipeline Challenges	MacLeod Hall B
15:30 - 16:00	Bob Andrews Assessment of Stress-Based Design Pipelines Experiencing High Axial Strains	Telus Glen 208/209

WEDNESDAY, 26 September 2018

9:00 - 9:30	Otto Huisman Formalizing Integrity Management Workflows: Towards Integrity Process Modelling	Telus MacLeod E1
-------------	--	------------------

11:00 - 11:30	Simon Slater An Integrated Approach for the Verification of Pipeline Material using latest State of the Art Technologies and Engineering Processes	Telus Glen 203/204
11:00 - 11:30	Michael Smith Pipeline Data Analytics – Enhanced Corrosion Growth Assessment through Machine Learning	MacLeod Hall D

THURSDAY, 27 September 2018

8:30 - 11:30	Alasdair Clyne Fitness for Service	Telus MacLeod E1
9:00 - 9:30	Brian Brooks Post-Construction ILI Execution Planning Guidelines for Pipeline Quality Verification	Telus Glen 205

FRIDAY, 28 September 2018

8:30 - 9:00	Chris Holliday Do You Have Wrinkles? A Strain and Stress-Based Approach for the Assessment of Wrinkles Reported by In-Line Inspection	MacLeod Hall B
9:00 - 10:00	Rhett Dotson on behalf of Enbridge An Authoritative Comparison of Remaining Life Assessments for Pipeline Dents	MacLeod Hall C
